

Pirate Treasure

Sensory Bottle

You will need:

Sand

Cooled boiled water

Small metal objects and coins

Blue food colouring (optional)

Magnet

Bottle

Strong glue

Sticky tape (optional)

Method

1. Add sand to the bottle until the bottle is half-full.
2. Add some small metal objects and coins.
3. Fill the bottle up to the top with water. You may wish to add a few drops of blue food colouring to the water.
4. Squeeze glue onto the inside of the bottle top and secure the lid onto the bottle. Allow time for the glue to dry. You may also like to tape around the lid of the bottle with coloured sticky tape.
5. The bottle is now ready for the children play with. Encourage the children to find the treasure by moving the magnet around the outside of the bottle.
